---	--------------------------------

Dear Parents & Friends,

This week our Newsletter is returning to a more 'normal' format, which is a reflection of how well the children have settled back into a routine. It has been wonderful to welcome everyone back and I am sure you will join me in hoping that we don't go back into lockdown! By now, everyone knows how to protect themselves and others from COVID-19, so let's all play our part to stop the spread of coronavirus, and prevent another school closure!

Asymptomatic testing information for parents and adults in households with children at school or college

Undertaking regular, rapid coronavirus (COVID-19) testing helps reduce transmission of the virus. Parents and other adults in households with children at school or college, who do not have symptoms, can now access regular, rapid coronavirus (COVID-19) testing. This includes childcare and support bubbles. Tests are fast, easy, and completely free. There are different ways for a household, childcare or support bubble to collect their test to take at home, twice-weekly:

- Through your employer if they offer testing to employees.
- By collecting a home test kit from a local test site – anyone aged 18 or over can collect 2 packs of 7 tests by ordering a home test kit online – please do not order online if you can access testing through other routes. This frees up home delivery for those who need it most. Visit the website at:

<https://www.gov.uk/guidance/rapid-lateral-flow-testing-for-households-and-bubbles-of-school-pupils-and-staff>

If you have any queries about the tests, and you live in England, please call 119 (free from mobiles and landlines). Lines are open every day from 7am to 11pm. **Children of primary school age (and below) without symptoms are not being asked to take a test.**

Testing is voluntary, but strongly recommended to all who are eligible. Alongside the vaccine, washing hands, wearing face coverings, and maintaining social distancing, rapid testing plays a vital role in reducing transmission rates. Getting into the habit of regular testing as part of our everyday lives will help us all to play our part and do what we can to protect each other.

Top Tips for Returning to School

The School Nursing Team have produced a 'Top Tips for Returning to School' leaflet, which might be useful, especially if your child is anxious. I have included it with this Newsletter.

Stay Well ☺

Mr. J. Danson
